GC G-Light LED visible light curing unit

1. The Ratings – Curing Lights, G-Light. Reality Now, September 2005, Number 173
2. Hardness and cure depth 12 composites with LED curing light. M. Waite, J. Burgess, D. Mercante. Abstract 1831 – IADR, March 2005, Baltimore, Maryland, USA
3. Editor's Choice Equipment – G-Light. The Dental Advisor, Vol.22, No.10, December 2005, p.11
4. Effects of LEDs on Microhardness and Temperature Rise of Dental Composite Resins. T.-S. Jeong, Y.-R. Kim, J.-H. Kim, H.-I. Kim and Y. H. Kwon. Dental Materials Journal 26(6):838-844, 2007
5. Shrinkage-strain rates of different light-curing units. C. Rahiotis, A. Kakaboura, M. Antoniadou and G. Vougiouklakis. Abstract 0334 - IADR, Sept 2006, Dublin, Ireland
6. Light diffusion property of newly developed composite resin "G-ænia". K. Hirano, F. Fusejima, T. Kumagai and T. Sakuma. Abstract 3019 – IADR 2010, Barcelona, Spain
7. Mechanical strength of dental adhesives cured by violet laser diode. A. Kameyama, J. Kato, H. Hatayama, J. De Munck, A. Haruyama, M. Yoshinari, M. Tsunoda, B. Van Meerbeek. Abstract 7 – ADM, October 2010, Trieste, Italy
8. Characteristics of resin-modified glass-ionomer cements. S. Akiyama, K. Kato, H. Minamisawa, F. Fusejima, T. Sakuma. Abstract 1977 – IADR 2011, San Diego, USA

Articles in Dental magazines

1. Curing versatility – Improved LED technology offers two wavelength ranges. DPR Europe, November/December 2005, p.22.
2. Best products 2007. CRA Vol 31 Dec 2007.
3. LED Light-curing units. Dental advisor, Vol 23, No.5, June06
4. Editor's Choice. Dental Advisor, Vol 22, No.10, December 2005
5. Resin Curing lights – state of the art 2006. CRA Newsletter, Vol 30 Issue 2, Feb 2006.
6. Low cost LED curing lights – what is gained & lost? CRA Newsletter, May 2007
