## Saliva Check BUFFER

### In vitro test for checking the quality, pH and buffering capacity of saliva

1. Saliva testing – Good practice, good sense! C. Coulter, LJ Walsh. NZDA NEWS, Vol. 129, April 2006 (Extract from the manual *Saliva testing: Good practice, good sense* by LJ Walsh, published by GC Asia 2002.)
2. PCR Quantification of *S. mutans* in an intra-oral demineralization model. M. Colligan, L. Du-Thumm, M. Fernando de Andrade Siliva and C.C. Pinheiro. Abstract 3256 - IADR, March 2005, Baltimore, Maryland, USA.
3. The association between salivary buffering capacity and caries prevalence in young children from Buharest's schools. SL Dr.Dumitrache Michela Adina. Published in 2008.
4. Assessment of saliva pH after ingestion of soft drinks by different methods. G. Pasini, M. Casini, A. Merlone\*, E.M. Polizzi. Poster awarded as the best on the Research Section at I Expo di Autunno delle Universita' Lombarde in collaborazione con il Collegio dei Docenti di Odontoiatria, 30/11 - 1/12/2007.
5. Variations in salivary caries protective functions in healthy individuals. M. Kim, A. Chan, J. Aleksejuniene and C. Clark. Abstract 1039 - IADR, March 2007, New Orleans, USA.
6. Standardization effect on reliability of salivary measurements - a methodological study. J. Aleksejuniene, M. Kim, A. Chan and C. Clark. Abstract 1108 – IADR, March 2007, New Orleans USA.
7. Clinical aspects of salivary biology for the dental clinician. L.J. Walsh. Clinical, July 2007.
8. Effect of CCP-ACP on oral health of cerebral palsy children. Z. Aytepe, E.B. Tuna, D. Oner Ozdas and E. Yamac. Abstract 3343 – IADR, 2008, Toronto, Canada.
9. Early childhood caries – A review. S. Misra, J.F. Tahmassebi and M. Brosnan. Dental Update, November 2007, p.556-564
10. Protocol for the prevention and management of root caries. T. Donovan. Journal Compilation 2008, Vol.20, N°6, 2008.
11. Oral cavity risk assessment of a child with progressive dystrophic myopathy. M. Rashkova, E. Karageorgi.
12. Effects of methamphetamine on salivary characteristics: a pilot study. J. Flanigan, M. Smith, M. Cunningham-Ford, S. Guzman-Armstrong and T.A. Marshall. Abstract 2064 – IADR 2009 Miami, USA
13. An in vivo investigation of associations between saliva properties, caries prevalence and potential lesion activity in an adult UK population. S. Varma, A. Banerjee, D. Bartlett. Journal of dentistry 36(2008) 294–299
14. Analysis of the caries risk assessment method. I. Maldupa, A. Brinkmane and A. Mihailova. Abstract 178 – IADR 2010, Barcelona, Spain
15. Prevalence of xerostomia and salivary gland hypofunction in nursing homes. M. Silva, E. Milford, M. Hopcraft, A. Bhide, R. Easaw, J. Jiang, N.H. Lim, D. Pinto, K. Supasiti, K. Xie and M. Morgan. Abstract 550 – IADR 2010, Barcelona, Spain
16. Comparison of saliva buffering capacity by commercial (colorimetric) and conservative tests. D. Oner Ozdas, E. Yamac Yilmaz, G. Aren and Z. Aytepe. Abstract 4271 – IADR 2010, Barcelona, Spain

17. Secretory Immunoglobulin A (SIGA) and dental caries of children with different diseases and conditions influencing oral medium. M. Rashkova, M. Baleva, M. Peneva, N. Toneva, G. Jegova. Journal of IMAB - Annual Proceeding (Scientific Papers) book 2 - part Dentistry
- 18.

### Articles in Dental magazines

1. Editors' choice Saliva-Check. The Dental Advisor, Vol.22, No.5, June 2005
2. Evaluer la protection naturelle. L. Lavoix. Dentiste Mag n°1 – mars/avril 2006
3. Dents et pratiques alimentaires du jeune joueur de tennis de haut niveau de performance. S. Perez, B. Montalvan. Alpha Omega News, n°105, Novembre 2006
4. Minimum intervention come nuovo approccio diagnostico-preventivo. M. Basso, J. Nowakowska, L. Francetti. Il Dentista Moderno, Ottobre 2009
5. Prophylaxie et prise en charge globale des facteurs de susceptibilité à la carie du patient, première étape de l'économie tissulaire amélaire. M. Blique, S. Grosse. Revue d'Odonto-Stomatologie/décembre 2008
